## KAMBO TREATMENT ("CEREMONY")

(including optional Rapé snuff and Sananga eye drops)

#### INDEMNIFICATION AND ASSUMPTION OF RISK

### Disclaimer of liability:

Kambo is the secretion of the Phyllomedusa bicolor frog. Traditionally, Kambo is produced by indigenous peoples of the upper Amazon is used to lift panema (dark or negative energy) and to yesgen "magic". Her cambo user Natalie Keller has been recognized by international cambo practitioner associations trained. Your praetitioner is not in the medical field here and does not diagnose or prescribe medication for any conditions, nor does she diagnose, treat or manage any medial conditions. The Kambo treatment should not be used as a substitute for medical care and advice of your doctor can be used. Please consult a qualified, licensed physician for any illness.

#### In return for the participation in the Kambo treatment I agree to the following:

1. I have completed and read a confidential participant information form completely and accurately and fully disclose my current and past medical and psychiatric conditions, including prescription drug use and recreational drug use and alcohol consumption I affirm that I am not suffering from any unknown physical or mental condition and I have not decided to stop the prescribed meditation to participate in this cambo treatment without consulting my doctor. I understand that the following conditions for receiving Kambo do not apply and that using Kambo under the following conditions may result in serious medical problems, mental health problems or death.

#### I further confirm that none of the following conditions apply to me currently or in the past:

- Stroke
- Heart Bypass Surgery
- Enlarged heart
- Implanted cardiovascular direct current fibrillators
- Congestive heart disease
- · Excess fluid in the heart sac
- Heart valve replacement surgery
- Organ Transplantation
- Aneurism
- Active ulcers
- · Addison's disease
- Crohn's disease / irritable bowel syndrome (IBS)
- Cerebral hemorrhage
- Blood Clot

- Serious mental illness
- Seriously low blood pressure, the medication requires
- Pregnant or breastfeeding children younger than
   1 Year are
- Within 21 days of birth
- chemotherapy or radiation of less than 6 weeks before or 6 weeks after
- You are not currently taking any food supplements to lose weight or sleep
- You are not addicted to drugs or alcohol
- You did not fast 7 days before this EVENT and have not fasted for seven days thereafter
- Diseases of the oesophagus
- · Diseases of the stomach

Three days before Kambo no colon hydrotherapy, other enemas, liver flushing or water-based detoxification should be done!

You have clearly understood that the use of Kambo can cause permanent scars and, if necessary, pigmentation on the skin!

I note that in a few cases of previous damage, such as see contraindication, vomiting may cause injury to the oesophagus.
